CloudNova Teknologi - 02_products_services

Katalog Produk & Layanan — CloudNova Teknologi

1. CloudNova Compute (IaaS)

Layanan virtual machine (VM) sesuai permintaan dengan skalabilitas otomatis. - **Tipe instance**: Nova-Micro (1 vCPU/1GB), Nova-Standard (2 vCPU/4GB), Nova-Pro (4 vCPU/16GB), Nova-Max (8 vCPU/32GB). - **Sistem operasi**: Ubuntu 22.04/24.04, Debian 12, Windows Server 2022, CentOS Stream. - **Fitur**: auto-scaling, snapshot otomatis harian, firewall berbasis security group, IP publik statis opsional. - **Region tersedia**: id-west-1 (Cikarang), id-east-1 (Surabaya), sg-central-1 (Singapura).

2. CloudNova Storage (Object Storage)

Layanan penyimpanan objek kompatibel S3 untuk backup, media, dan big data. - Kelas penyimpanan: Standard, Infrequent Access, Archive. - Enkripsi data saat transit (TLS 1.3) dan saat disimpan (AES-256). - Replikasi lintas region opsional (cross-region replication).

3. NovaFlow (Workflow Automation / Low-Code)

Platform otomasi proses bisnis berbasis drag-and-drop. - Integrasi siap pakai: Google Workspace, Microsoft 365, WhatsApp Business API, Xendit, Midtrans. - Trigger: webhook, jadwal (cron), perubahan data, email masuk. - Cocok untuk: otomasi approval, notifikasi, sinkronisasi data CRM-ERP.

4. NovaAI (Agentic AI Platform)

Layanan platform AI agentic untuk membangun asisten virtual dan otomasi berbasis LLM. - Fitur utama: RAG Builder (manajemen knowledge base), Agent Orchestrator (multi-step task), Tool Connector (API eksternal), Audit Log percakapan. - Mendukung model internal **NovaMind** (varian Nova-Lite, Nova-Standard, Nova-Pro) serta integrasi model pihak ketiga melalui API gateway. - Use case umum: customer service otomatis, analisis dokumen internal, asisten riset.

5. NovaDB (Managed Database)

Layanan basis data terkelola. - Mesin didukung: PostgreSQL, MySQL, MongoDB-compatible (NovaDocDB), Redis. - Fitur: backup otomatis, failover otomatis, read replica, monitoring performa real-time.

6. CloudNova Security Suite

Paket keamanan tambahan untuk seluruh layanan CloudNova. - WAF (Web Application Firewall), DDoS Protection, Vulnerability Scanning, Identity & Access Management (IAM) terpusat.

Paket Bundling

Paket	Target Pengguna	Komponen
Nova Starter	Individu / UMKM	1x Nova-Micro, 10GB Storage, NovaFlow Basic
Nova Business	UKM	3x Nova-Standard, 100GB Storage, NovaFlow Pro, NovaDB Shared
Nova Enterprise	Korporasi	Custom VM, Storage unlimited*, NovaAI Enterprise, Dedicated Support

*Tunduk pada fair-use policy sebagaimana diatur dalam dokumen SLA.
